

Grocery Snacks

2026

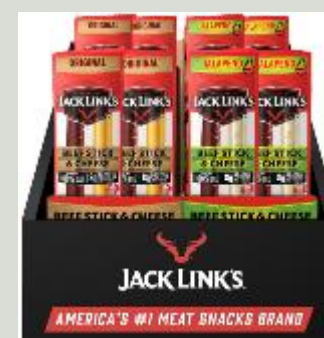

Grocery & Snacks Insights

- Convenience and grab-and-go snacking continue to fuel category growth.
- Protein-rich snacks and better-for-you options are gaining share.
- Consumers are balancing indulgence with wellness rather than eliminating treats.
- GLP-1 users remain engaged in snacking but are more intentional about portions and ingredients.
- The K-shaped economy is driving growth at both the value and premium ends of the category.
- SNAP and WIC policy changes may increase focus on affordability and value.
- International flavors and influencer-driven products continue driving trial.
- Functional benefits like protein, energy, and wellness continue shaping innovation.
- Cross-merchandising snacks and beverages remains a strong basket-building opportunity.
